14. Tulalip Casino in WA is said to have reopened their original casino due to demand, they may now have two ticket types.
15. CA state questions the use of Class II "VLT" lottery terminals slots at Pechanga and Morongo could result to TITO changes.
16. Casinos are moving to more use of UV security dropping their use of Slot Trax security

Special thanks to: for extensive inputs to this issue of the newsletter

1. Bob Vollenweider of WWW.DICEMAN.CH for lots of new out of the way locations.
2. Walt Gonski for 2004 G2E material.
3. Tom Edwards for 2004 G2E material.

**Feature Article:**

## 1. Multiple TITO Back Designs From One Machine

We are now seeing casinos using fan fold feed stock of four tickets, each of a different design. The fan fold stock is how you can get four different back types from a single machine one after another. Four types seems to be the standard, however examples have been seen where a design is repeated every other ticket to give 3 designs in four tickets. At the 2004 G2E Gaming Show one vendor offered an 8 design option with the short SDG type tickets, no actual use of that many designs by a casino has been seen.
